

[Insurance Adjuster],

"After the flood damage was done to our home in late December, I was anxious to get the house repaired and restored to its original condition. I knew I needed to find a general contractor to look over the work, but I was not sure who I should contact.

I was surprised how quickly I received a return call from Brandon Smith [Repairs Unlimited]. Not only was he willing to come out for a bid, but he said he could come to the house later that same day.

After meeting with Brandon, and receiving his bid, I decided to go with his company for the repairs. We signed the contract on a Friday and he began the work the following Tuesday.

This was such a relief to me since I needed someone who was knowledgeable in the area of repairs, and was going to look out for my best interests.

There were times when I would have questions or concerns, and Brandon would either call or come by the house to take care of the issues and/or concerns.

I found the bid Brandon gave me at the beginning of the job, was very much on target with the actual job cost. Knowing we were staying within our budget was a relief to me and I know my husband appreciated it too.

We now have all the repairs done and our house looks beautiful. I want to thank you for taking care of our insurance claim with such efficiency. I also would like to take this opportunity to say if you ever need a reference for Repairs Unlimited, I would be happy to give one."

Sincerely,

Amy B.
